

MARMOSSET

Digitising property marketing.

www.marmoset.digital

We take **your existing marketing material** and turn it into a **beautiful, custom branded app.**

- Your brand
- Property CGIs
- Property information & floor plans
- Development siteplan
- Brochure information

MARMOSSET

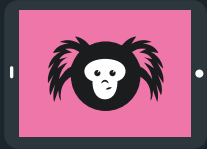

A single, powerful app...

...multiple platforms.

Multiple publishing options.

Fully managed hardware with remote support

Touch screen apps for public spaces lead a hard life. We strongly recommend you opt for our hardware rental solution. Simple installation. Extremely robust. Built for its environment. Guaranteed uptime with your Hardware Service Level Agreement.

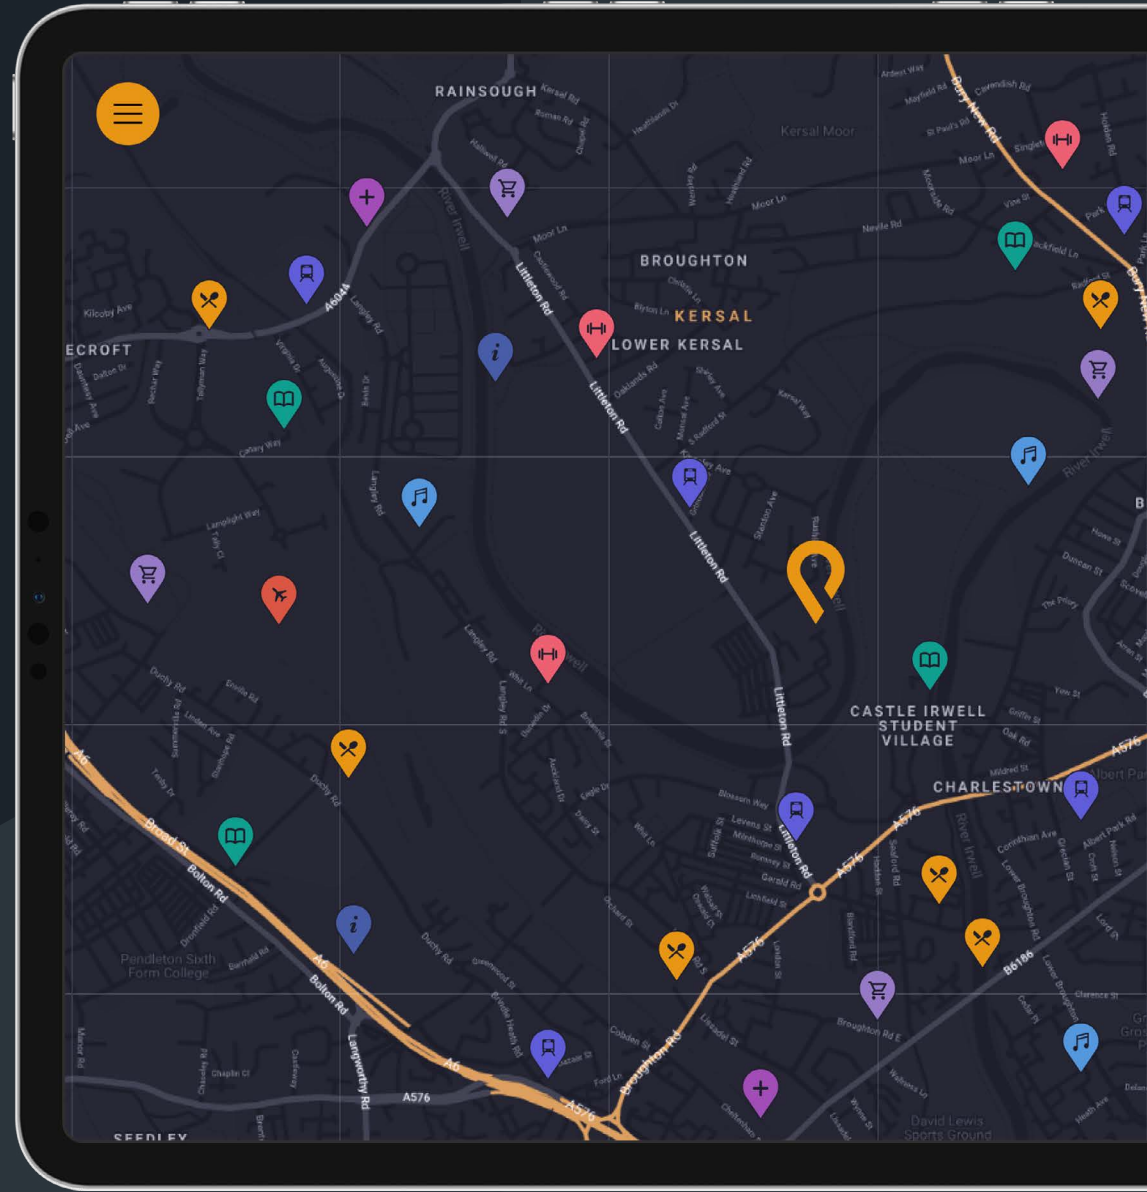

Public app stores

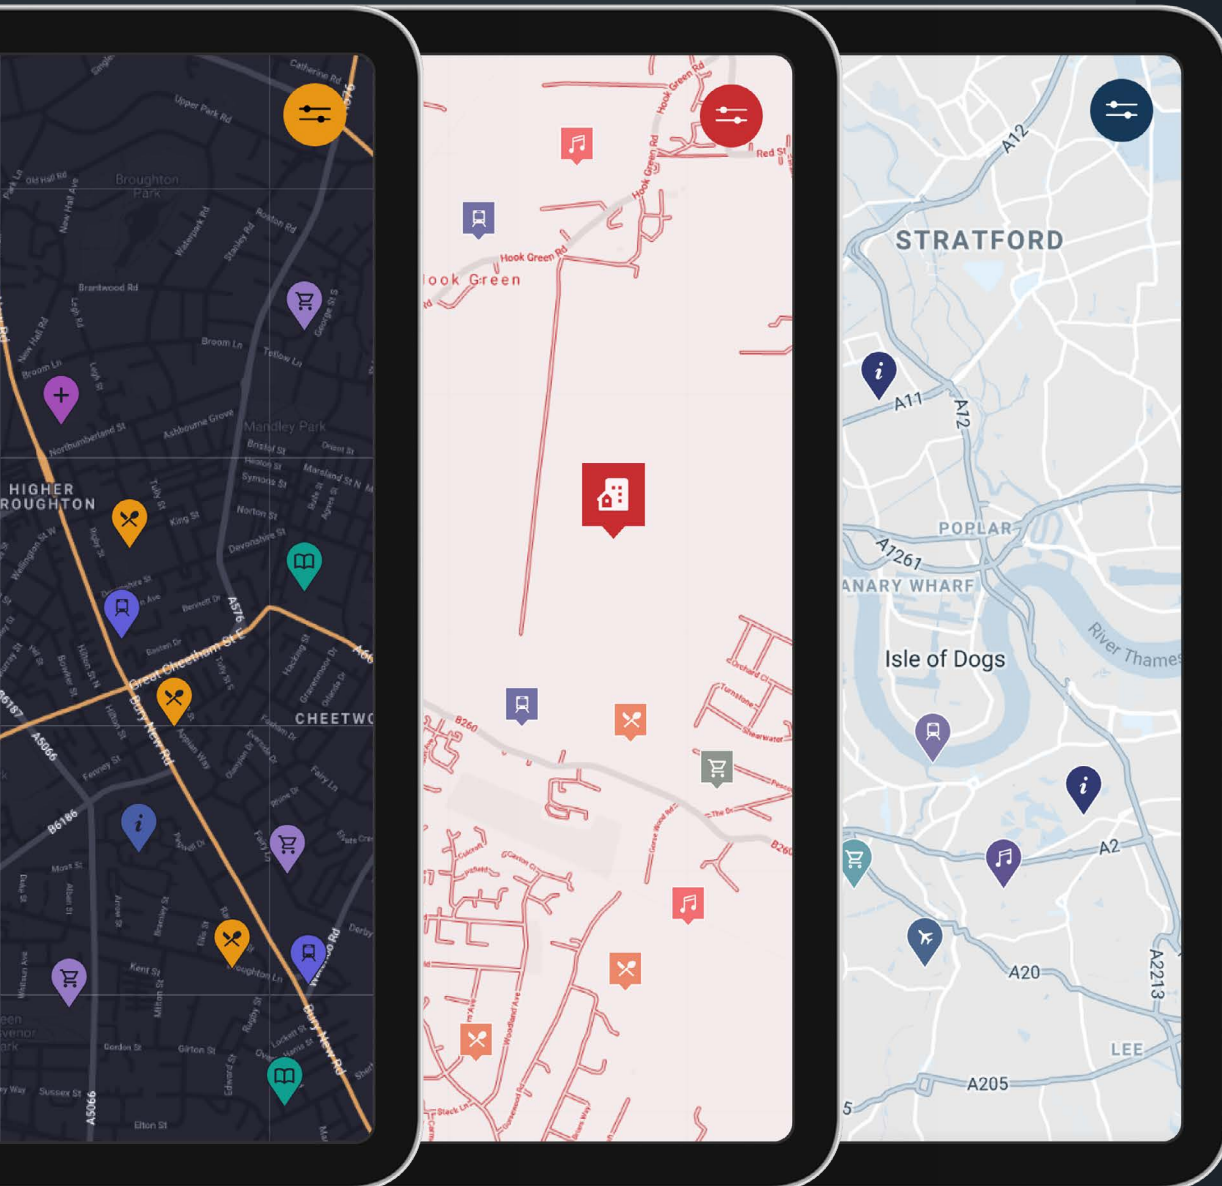

Have your app publicly available in both iOS and Android stores. This includes your Software Service Level Agreement, monthly analytics reporting, and ongoing support for new OS upgrades.

We build even faster.

Our unique architecture allows for rapid development with no compromise on quality.

Branded for you.

Your buyers trust your brand and we know that familiarity across marketing materials helps you sell. Marmoset is customised to ensure brand consistency across your new app.

MARMOSSET

It's simple. We turn your marketing materials into a **fully immersive** app with the following **features**.

- Property finder
- Siteplan
- Location
- Interactive brochures
- Galleries

Property finder •

House hunters can browse available properties and filter their search to find their perfect home. Potential buyers can read about a property, view floor plans and CGIs, and see available plots on the siteplan.

Galleries •

Use galleries to showcase stunning interiors and kerb appeal, and create excitement amongst your potential buyers.

• Siteplan

Let your potential buyers explore the new development with the siteplan feature. Tap on properties to see floor plans, dimensions and other information.

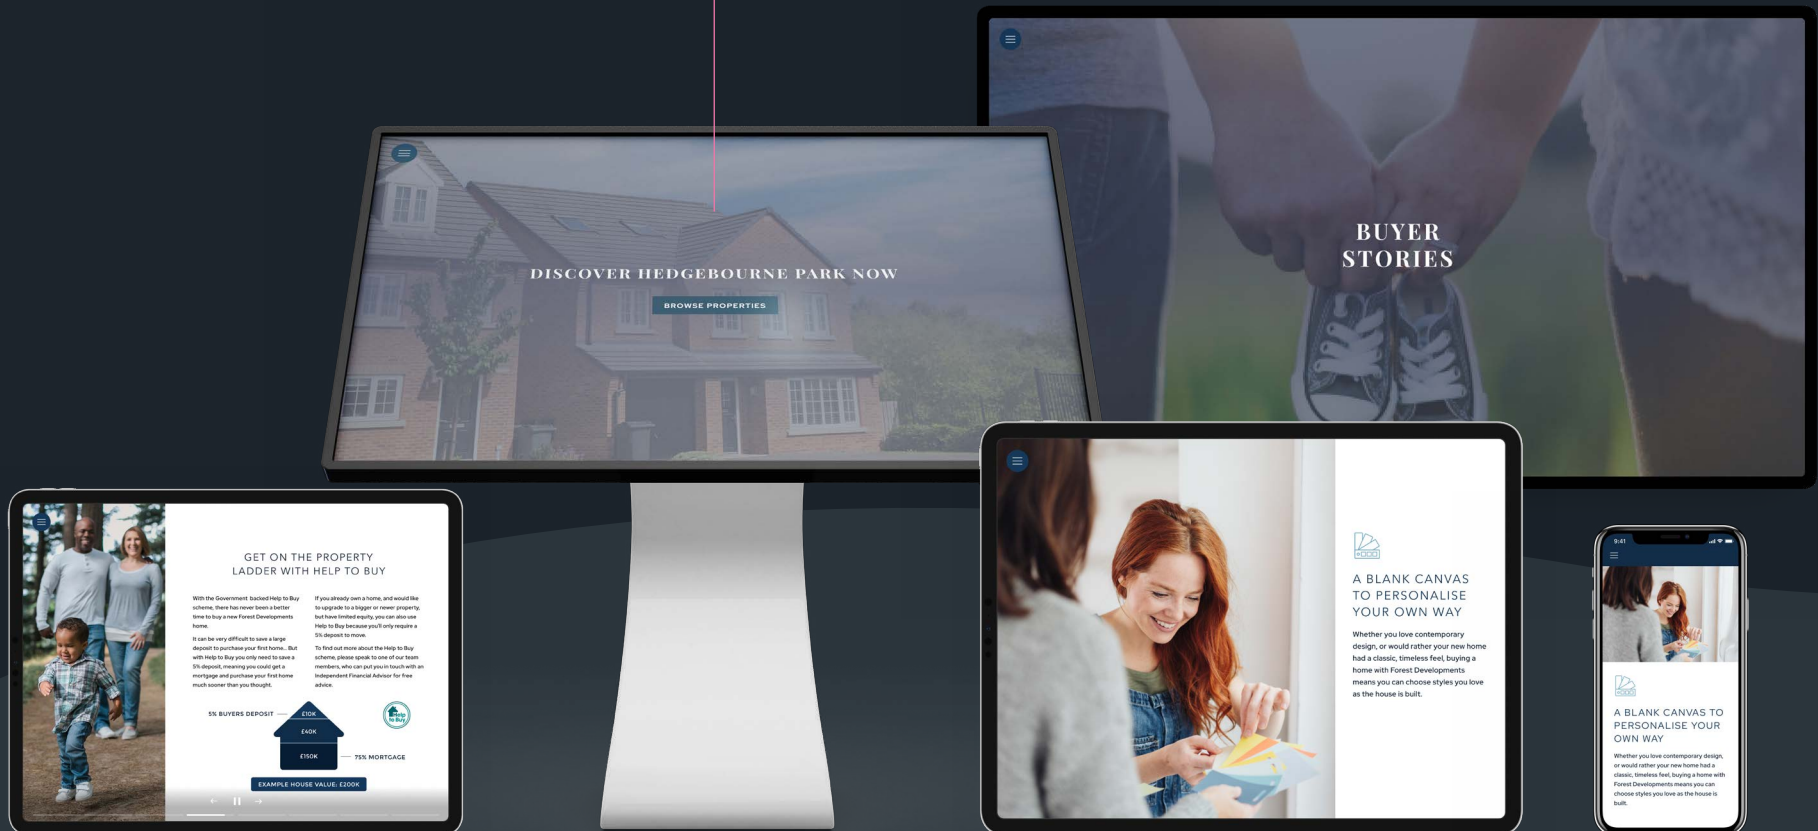

Location •

Sell the area to your buyers. Show them the local amenities, all categorised in line with your other marketing materials.

Bespoke digital brochures •

Give your buyers that extra bit of reassurance by having all your important information in one place, all custom-built to compliment your physical marketing materials.

Manage your app on a simple content management system and watch it sync to devices in real-time.

A cloud hosted database allows you to make changes to your app via the CMS and watch your content instantly sync to your devices. No technical know-how needed.
