## Choose publishing options:

After your initial build, you have the following publishing options. All devices and PWA sync with a single CMS.

### Managed native kiosk install

Touch screen devices in marketing suites and show homes lead a hard life, which is why we recommend our fully managed hardware solution. We can hard install your app natively onto a wide range of devices and lock it down into kiosk mode to offer the absolute best user experience. The device is remotely managed by us.

- Fully featured native kiosk experience
- Offline cache and local media support
- Super smooth and fast
- Guaranteed best user experience
- Ideal for marketing suites

**Extended service level agreement**

**Guaranteed uptime**

**Monthly analytics reporting**

<b>Publish cost</b> (per device)	<b>£750</b>
<b>License fee</b> (per device)	<b>£99 /mth</b>

Minimum 12 months.  
Device purchases available.

### Public progressive web app

A lighter version of your app can also be hosted online for the public to view, in the form of a progressive web app (PWA). Available on any device, it has a URL like a website, but can also be saved to a user's home screen on a mobile device, similar to a native app.

- Works across all devices and platforms
- Super light and super quick
- No big heavy downloads
- Public link can be sent and opened by any recipient
- Share any content with deep links
- Integrated register interest feature

**Hosting and support included**
